

Pennyroyal Families:

At 11:58 am this morning, Principal Ward discovered smoke accompanied by an odor coming from the teacher's lounge. The fire department was immediately notified and students were evacuated from the building. All students and staff were safely evacuated and accounted for within minutes. The fire department issued a return to the building at 12:20 pm. The fire department found the cause to be a faulty water heater that has since been taken offline. Students returned to their normal activities.

Sincerely,

*Jeremy Ward*
