Over the coming weeks, T-Mobile will be transitioning T-Mobile for Education customers using our content filtering to a different filtering product addressing the same types of content. The new filtering product is supported by Cisco. Contact your account representative at any time for content filtering options and details.

Helping ensure internet access is not a barrier to a child's education.

Last year, we launched Project 10Million as our commitment to close the homework gap. We continue building on last year's momentum by providing students with free internet, free mobile hotspots, and at-cost devices for students learning online and in the classroom.

Providing access to opportunity.

1:00

Bridging the gap for millions of children.

We can provide school districts with the resources they need to connect students—giving them access to education. "T-Mobile giving us access to Wi-Fi hotspots was 100% the biggest lift that we could have gotten this year." -Brynn Wilson, Renton School District

During congestion, Project 10Million customers may notice speeds lower than other customers due to data prioritization. Video typically streams at DVD quality (480p). [See full terms](#)

Interested in Project 10Million? It's easy to get started.

Empower your district with our biggest and best network ever.

I'm a school administrator

I'm a parent/guardian

Who is eligible for Project 10Million?

Eligibility for free program is based on school or school district students enrolled in the National School Lunch Program and is for students grades K-12.

How do school administrators apply?

Interested schools or school districts can fill out a program request form. Upon receiving your application, a T-Mobile education expert will contact you.

How will devices be distributed?

All hotspots and other devices will be provided to eligible households by their school.

What can a student do with 100GB of data?

It's enough data for any one of the following:

- ✓ **140 hours**
Streaming school videos
- ✓ **320 hours**
Of online virtual learning
- ✓ **5,000 hours**
Of internet research
- ✓ **200 hours**
Of online college test prep

The devices you need to stay connected.

School districts will receive one FREE mobile hotspot per eligible household. Schools can also purchase additional devices at cost:

- Coolpad Tasker tablet
- Samsung Chromebook 4
- Lenovo 100e Chromebook 2nd Gen
- Lenovo 100e Windows PC 2nd Gen

Up to five at-cost devices per eligible line.

Are you a school administrator looking to get your school connected?
